

WEST WINDOW

Perfect Rest

In our west window we are displaying a "Goodnight" spring and a "See See" inner-spring mattress that for perfect rest and comfort have never been surpassed.

We will be glad to explain the real merits of this rest producing bed anytime you may call. Come.

STATE STREET

HITS TRAIN SERVICE

The strike of the "outlaw" railroad workers, which has caused a shortage of coal on the Pere Marquette, has caused the cancellation of over a score of trains on the various divisions. Two have been called off on the Saginaw-Grand Rapids division, these being the two afternoon passengers, which are annulled until further notice.

Bees Distinguish Colors.

Experiments have shown that bees distinguish different colors, but different colors acquire significance for bees when the insects have learned that certain colors are associated with certain nutritive advantages. The bees are not "reflex-machines"—they are not compelled by any organic chromotropism to prefer certain colors to others. They accumulate experience and remember that certain colors are associated with certain nutritive benefits.

Meaning of "Selah."

The word Selah, which occurs so frequently in the Psalms, is usually believed to be a direction to the musicians who chanted the Psalms in the temple. Matthewson, the great musical critic, wrote a book on the subject in which, after rejecting a number of theories, he came to the conclusion that it is equivalent to the modern "da capo," and is a direction that the air or song is to be repeated from the commencement to the part where the word is placed.

Importance of Good Health.

Good health of itself, to be sure, does not sum up the whole secret of personality. But it is a most important element, as you will presently appreciate when you adopt rules of living that result in a distinct bettering of your health. You will begin to feel more self-confident. You will attack business problems more masterfully. You will find it far easier to sway others by your personal influence.—H. Addington Bruce, in Chicago News.

Pietists.

This religious sect was also called "Sepparists." It was a sect of the Lutheran church which preferred private to public worship. The founder was Spencer of Leipzig and his home was called "Collegia Pietas," because his disciples met there. Ordained clergymen had no marked precedence and anyone was permitted to address the assembly, as among Quakers.

Famous English Chimneys.

A "twisted chimney" distinguished an Elizabethan manor house in the ancient town of Buckingham, England, which is to be offered for sale shortly, and the auctioneers assert that the secret of this mode of construction is lost, and that the only other "twisted chimney," and that less perfect, is in Hampton Court.

Finland.

Finland occupies about 144,000 square miles of territory, of which 125,000 square miles are land. This territory, which is slightly larger than Norway, has a population of only 3,084,000 people. It is said that illiteracy is almost unknown.

Lucid.

Little Roy had just returned from a week's visit to his aunt, and was trying to describe the folding bed he had been sleeping in. "It lays down at night, mamma, and stands on its hind legs in the daytime."—Boston Transcript.

When Holland Banned Orange.

There was a time when Holland forbade the sale of oranges and carrots. Orange was the color of the stadholder's family, and when the democratic feeling against this family was at its height the fruit or orange color was taboo.

The "Z" Has More Than Rated Power

The work delivered by the "Z" Engine goes beyond the horse power rating we place on it. This gives greater value for your money—increased service—longer life.

The "Z" has large inlet and exhaust valves—easily accessible—insure smooth, steady running—complete fuel combustion.

Tight compression in the accurately machined and polished cylinder increases "Z" Engine power—reduces fuel and power losses to minimum. Positive, dependable Bosch ignition adds to power output—provides hot, powerful spark—insures quick starting. Complete combustion gives greatest power from each gallon of fuel—prevents formation of carbon—means more power at lower cost.

Other "Z" features are: Runs on kerosene, coal oil, tops, as well as gasoline; built in Bosch high tension oscillating magnetos; every part interchangeable; clean-cut, efficient design; long-lived endurance. Come in and see this celebrated engine today.
